

## Who We Are

Bridging the Gap is a partnership between PCs for People and Mobile Beacon that brings access to life and helps low income individuals and families get on the path to opportunity by providing the first-class technology they need to break the cycle of poverty. Bridging the Gap enables nonprofits to offer their community high-quality, affordable computers and first-class uncapped, high-speed, and unlimited internet service so their limited budgets won't mean a second-class level of technology.
