

Thanks for Your Support of Issue 3: A Message from the Board of Trustees

On behalf of the Library's Board and staff, we offer our sincere thanks for the support of our seven communities for approving Issue 3 on the November 5th ballot. We are grateful for the confidence that voters showed in the services of the Willoughby-Eastlake Public Library to our patrons and communities.

With this endorsement from our voters, we will continue to invest carefully in our programming, our staff, our facilities, and in services that contribute to the betterment of the individuals, families, and communities that rely on the Library.

As Board Members, we pledge to continue to be good stewards of the financial resources that our communities invest in the Library. We will work hard with our staff to ensure that the Library maintains and expands its role of partnering with our City governments, the Willoughby-Eastlake Public Schools, community and civic organizations, and our patrons to meet the needs and expectations that our communities have for a superior public library system.

Please know that we take your confidence seriously and we will work hard to maintain that confidence as we guide the Library's mission, operations, and outreach.
